

I didn't sleep at all due to the previous class and the lack of information I was having towards the subject. I didn't sleep until it started raining after 4 am. I slept after coming to my house and had a good nap for a couple of hours. I spent the morning and afternoon studying the swift language. In the meantime, while I was having my lunch break, I received the tempered glasses and the trolley. I attended the exam and wrote the exam and came out to have my dinner. After this, I have to go and do my brushing and think of calling my brother(Mahesh).
