

After my reading of the newspaper, I went and had tiffin and then came back into my normal position of studying java language. I studied everything partially and not fully today.

In the afternoon, I watched a web series and had my lunch as well. Immediately , I started reading the book and completed it after two hours. In the meantime, I ate the boiled groundnuts..

I did my leg exercise as well in the evening.

After my bath, I thought of studying the java swing concept but I lost my interest and decided to start fresh from tomorrow. So far, I haven't decided the timetable for tomorrow..

Right now, I have to wash my face, brush my teeth, apply face cream and go to sleep.

I forgot to tell you that my parents went to Kadapa for the purpose of going to the hospital in the afternoon and I watered my plants....
