

I woke up at 6 am and went to college without eating tiffin because I didn't have much to eat at home. I attended both classes and went to Fairview mall to eat lunch with my friends. I ate the food, went for a side shopping, and came back home. At home, Initially, I thought of going to Laundry, but I didn't find the laundry card. So, I watched the movie for a bit and had a nap. At 8 pm, I spoke to Laxman bro regarding the DevOps. He told me how to do it and how to behave. After that, I talked to Aravind about shopping and told him to meet me at Walmart. I went shopping with him, purchased a few things, and returned home. Right now, we are in the process of cooking. Once the cooking is done, I will search for a carry and will eat my dinner. I think I will go to sleep after that period.
