

I woke up at 7 am and went to college after getting ready. The entire class was doing the project outside. So, we went out and worked on the project upto the afternoon. Once the class was done, Madhav and I went to STC to recharge his presto in the shopper's drug mart. Afterwards, I returned home, ate lunch, napped, and woke up at 6:30 pm. From 7 pm to 10 pm, I had dinner, spoke to my parents and friends, and talked with my roomies. Right now, I am about to bathe. Once I complete it, I will read the newspaper before I retire tonight.
