

Today, I am writing my diary or journal a little bit early because I have decided to stop studying until my wifi gets fixed and it generated me a lot of time. It has been so long that I lost my wifi connection during the morning....

I woke up early in the morning at around 5:30 am not because I had some important work to do but because of my father's tea habit. He woke up and he turned on the lights and he is speaking because of all these issues i got up. I checked my mobile and I was browsing the internet and watching youtube videos. I completed my daily chores and started reading the newspaper and one more thing I did was I studied Adolf hitler wikipedia. I had pongal as my breakfast and I enjoyed eating while watching tv. I went to the bsnl office at 11 am and I conveyed my problems with him. They don't know what to do with me because they don't understand the problem I am facing. At last, he said he will check my cable wire in the afternoon whether my wire is working or not.i came home and i watched videos that i already downloaded on my laptop.

I ate my lunch and I don't know when I slept. I woke up at 3:50 pm. After that, I missed my walking and book reading due to the nap that I took earlier. My wifi person came and checked the line and the line was fine and he told me to get another router on monday from the office. My brother and Sunil went to bazaar and got pani puri and i ate after having my bath. I spend the rest of the day watching tv and using my mobile phone. I didn't have much to discuss further. So,

I'm stopping here for this day. By the way, I ate a lot of tirumala laddu today due to the fact that Sunil went to tirumala and came today morning.....
