

I woke up at 11 am and I had done my bathroom schedule. I called my mother and spoke while preparing and eating breakfast. After that, I emailed allied security regarding my shifts and I didn't find anything or receive useful replies from them. I called Krishna and spoke for a few minutes regarding Kuwait. After that, I read the newspaper, read the death of the Nile book and went to buy groceries as well as a student transit pass. After coming home, I had a bath, studied for a bit and cooked my dinner with the help of Mahesh. Right now, I had my dinner and writing this one while watching the web series. Once I am done with this, I will watch the rest of the episode in the web series and will brush my teeth before going to sleep.
