

I think I want to skip the mourning routine diary which I was writing everyday. Due to the fact that, I was bored of writing the same stuff each and every day. During my 30 minutes walk, I spoke to my friend, Rohit, about the KGF chapter 2 movie. He said to me that the movie was excellent and I started getting a motivation inside of me to watch and experience the movie at any cost. My parents and my sister are going to the hospital to check her kidney which she has been in constant pain from the past two days. I asked my parents to give me the money for the movie. For that, they agreed and gave me the money. Sunil and I started our movie journey at five to ten and within five minutes we were in the movie theatre. We bought our tickets and made it inside. There lies the biggest problem I have ever seen in my entire movie theatre experience. Those are the seats which were not comfortable, the screen which was less resolution, the air system which was not upto the mark, the sound it was terrible. I have to say about the air system inside the theatre because when I came out of the movie after three hours it was the worst experience with the management because I was sweating a lot for such a wonderful movie. I had my lunch which was prepared by my grandmother. In the evening, my parents and my sister came from the hospital and they said me that again the problem for that pain is again her white blood cells are increasing and they asked my parents to come to hospital after three days to collect the blood reports and understand the problems my sister is facing effectively from the past three days. I had my bath at around 30 to 6 . then I started writing my diary and once I complete my diary I have to read the discovery of india book about 20 pages. I guess I will have dinner after that and probably watch the Sherlock series.
