

I woke up early in the morning and came to my house from the terrace and went to the washroom to brush my teeth, clean my face and for poo and pee. When I came outside, my mother went to bathe and I had to wait for my mother to come back to prepare my tea. I waited for about twenty minutes and my mother came and gave me the milk and water to prepare the tea. I prepared the tea and went for walking. After 30 minutes, I ate my breakfast and spent my morning time buying the MacBook Pro, purchasing check-in bags, and a laptop keyboard cover. In the afternoon, after I had lunch, I browsed the clothes to buy before I move to Canada and added the clothes to my cart. I got the free time in the afternoon and read the Elon Musk biography and did a few exercises after reading. The water in my tank was pretty hot because of the rising temperatures in India. Due to that reason, I filled the bucket of cool water from our house tap and filled the bucket in the bathroom and eventually, I did my bath cool water. After a wonderful bath, I spent some time reading the book. In the meantime, I asked my friend to give me his prime account and he gave me that. Right now, I am writing this diary. Once, I complete this diary, I think I may go and watch some youtube videos on book recommendations. Today, it has been a day without doing much work. Before, I go, why the life of a common man is pretty difficult to live?
