

I woke up pretty early even though it was a Sunday. I woke up at 9 am and the first thing I did was bathroom rituals such as brushing, cleaning, and taking a pee. After that, I started reading the becoming book while eating the nuts. It took me more than 1 hour to complete the daily quota of book reading. When I completed the reading part, the next thing that I did was newspaper reading and watch DevOps tutorials on youtube. I started the DevOps and within a few minutes, I helped Aravind to prepare the lunch. After lunch, I watched one episode of the House Of Cards web series just to relax my mind before I go for studying. I watched the tutorial for 2 hours and spent some time on the swift language. At 5 PM, I had a bath and prepared the tea which turned out to be one of the best tea I made so far in my life. I drank the tea while watching the youtube vlogs from different people which I follow on youtube. I continued to watch the videos after my tea. Right now, I am writing this diary. once I complete this, I will watch some youtube videos, eat dinner, and spend time on swift language.
