

I slept on the terrace and came back and slept at my house because it was raining early in the morning. I slept on the sofa and shifted to a cot in the span of a couple of hours. I didn't do much because I was busy studying newspapers and reading books for the entire morning. In the afternoon, my parents went to Kadapa and I studied a bit and spent time browsing my mobile phone. In the evening, I attended the class and I got to know about the final project which was hard and I and my group didn't even understand a bit. We desperately needed a break and I quit the class as soon as he said the class is over. I ate and went to sleep on my terrace. my eyes were urging me to get to sleep but my mind is focussing on the project and because of that, I slept a little late than usual.
