

I woke up and did my bathroom chores and waited for some time before I proceeded to floss and my brushing. The whole process took time for almost one hour. After that, I took my bath, ate my breakfast, and read the Gujarat files book. I read the book for 1 hour and watched the videos on swift language. In the afternoon, after I had my lunch, I watched the boy's web series up to half-past 1 and I read the blog of swift language which was released by Apple. I took one hour time before I attend my class and ate some snacks. I joined the class and the professor told us to install tools and leave the session like that for us to download. I watched the web series and started writing this diary. Once I complete this, I will have to wait in the class till it's over and I will have my dinner and watch some videos and go to sleep.
