

I woke up in the morning and did my usual things and worked on the project in the morning. I called Sunil to prepare the diagrams for my project but he didn't have access to MS word. So, I had to do it. Actually, I did complete the conceptual diagrams in the afternoon. My father came drunk in the afternoon and slept like a baby until 7 pm. I received several packages of my clothes from the myntra and I tried each and everything to choose the size. In the evening, I spent time choosing clothes and sneakers online. My brother got chicken in the evening and my mom prepared puri and chicken curry and we all ate it while watching the youtube on tv.
