

It was the day that I did an experiment with eating beef. I woke up pretty late I guess compared to Canada or India because I haven't slept up to 12:30 pm in Canada or India for the past 2 years. I woke up, prepared lunch, and spent the entire afternoon studying for the security exam. In the evening, I spent my time watching Netflix in Dheeraj's room while practising questions for the exam. During the night, we ordered the mc dee burgers and juices for the dinner. We ate and watched Netflix for some time and went to sleep. I forgot to tell you that I spoke to Chandra babu my friend and conveyed birthday wishes to him.
