

I slept early and woke up at around 7 am and I completed all the basic chores which I do every day. While I was reading the newspaper, my father made a call to Pullaiah and It didn't connect in the initial steps. Later, it got connected and my father asked for his money and they had an argument over the money my father is insisting to get his money at any cost. In the afternoon, Prameela came and she told her problems and ate and she went off. I spent the afternoon studying SQL, java tutorials. In the evening, I did my leg exercises and went to bathe. While I was taking the bath, there was a lizard and I did my bath while I was completely scared of that. I came and started writing the diaries. Right now, after this diary's completion, I will go and watch TV and have my dinner. I will wait for 30 minutes after my dinner before I do my brushing, cleaning, and applying cream on my face. I have downloaded the arynak web series and thinking of watching this web series this night before I let my body and me to sleep.
