

I was dizzy w I woke up on my terrace but the sun was falling on my bed and it was turning into an oven over there. So, I woke up and came down and did my daily chores. I did my walking, read the newspapers, and had my tiffin. In the morning, my phone was stuck and it was not functioning properly and that is the reason why I reset my mobile. in the meantime, I read it ends with us book and the book was quite interesting. It is full of emotions and romance and I am still to complete this book. In the afternoon, I tried connecting to wifi but it didn't connect and the reason is because of the problem with the Kadapa branch. The whole Kodur is facing a shortage of wifi. My brother came from school and he brought the hall ticket with him. Tomorrow, my brother is going to write his first public exam. My father spoke with some people about the cheats for my brother's exam by pouring alcohol on them. We talked for one hour or so about my brother's exam. While my wifi is under repaired, I read its end with us book. At around 4 pm, we got the wifi and I spent some time on my mobile and went to a bath. in the evening, I studied the 4A section of Lambton college and wrote the 4B exam. I scored 70 percent and I was good for the next section. I ate my dinner and started writing this diary. once I am done with this, I have to do my bathroom section and I am really interested in watching Gangubai Kathiawadi.
