

I was watching a web series yesterday night, when the rain came over to satisfy our needs for so long. I came home and slept on the sofa. I had a good night's sleep. In the morning, I got up, did my chores, ate my breakfast, read the news, and also read the book. I received two parcels from myntra in the afternoon. Both the parcels were good and fitted to my size. I ate my lunch and watched the swift language tutorials. I decided to go to the terrace for the class because it will give fresh air as well as a kind of outside experience. I spent several one hour on the terrace and came back and listened to the class outside of my house. Meanwhile, my mom got neck pain and low blood pressure in the evening. The reason we got to know is because she did neck exercises in the morning. Right now, I am writing this diary while the class is going on. After the class, I will have my bath and dinner. Once I am done with that, I will brush up and think of watching web series.
