

I woke up at 6 am and started readying for my college. I got ready, made breakfast, and went to college. The class was boring and I decided not to come to college tomorrow due to the break I needed for my sleep. In the interval, Lokesh and I bought the coffee through mobile order. I made some good contacts with other people and I asked a few doubts regarding the project. They explained to me and we made some good progress after the break regarding the project. Madhav and I had our lunch in the college and worked on the project. I came home at 6:30 pm and had a bath. I spent the entire time speaking to Laxman bro regarding the jobs and opportunities. Right now, I will go and eat my dinner. once I have my dinner, I will work on my project and study the newspaper or book. In the meantime, after my dinner, I will brush my teeth and complete my bathroom schedule.
