

Yesterday, i told you about my sleeping on the terrace and actually i ended up doing that. I woke up at around 8 am and did my daily chores and read the newspaper. After that, I had a 30 minutes walk and tiffin in the span of one hour. I started watching the android app development tutorials and I got bored or lost interest and ended up studying the book upto afternoon.

I had my lunch and then i watched bheemla nayak movie for next one hour. I started studying for a criminal justice lecture and I stopped after five minutes because I lost my electricity and I lost my wifi upto certain time. My family went to the gangamma temple near my house because we have a ritual to do some food and to offer it to the goddess. Today, we have that and my parents went to that.

When i had my bath, it was around 6 pm and i came to my terrace and spoke to my friends saikrishna, rohit regarding my upcoming purchase of apple laptops.

I had my dinner and probably gonna get some exciting videos about politics..

Actually, I forgot to write about this matter. My bank upgraded my card from money back to millenia. Within ten days, I am going to get my hands on that card and I got a Rs.250 voucher.

I converted my reward points to money that I gained while doing transactions on my credit card. The converted money was Rs.965 and i am going to get it into my account within two working days.

I put a cod order of four books that are very important and highly rated books. This is the first time I am buying books. The four books cost me around 966. The books are the discovery of India, Elon musk, 101 essays , and atomic habits.....
