

In the morning, I studied the swift ios app tutorials for beginners. I started in the morning after my breakfast and watched the course for one hour. After that, I read the angels & demons book for 50 minutes. Meanwhile, I received my two T-shirts from Ajio and tried those T-shirts after I completed the daily quota of book reading. Both T-shirts were good and one of the tshirts was quite big and I kind of enjoyed wearing it because it's giving me a new look. After my lunch, I read the newspaper and took a nap before I get into the app development. I took a nap of about 50 minutes and then I studied for 1 hour and 30 minutes. I ate some sweets before my bath while watching web series. I studied for one more hour after bath and right now, I am writing this diary. once I am done with this, I will have to do several works such as dinner, brushing, and thinking about watching youtube videos.
