

INFORMATION FOR PROSPECTIVE STUDENTS

1. Registration

PLEASE READ CAREFULLY

Students who wish to study at Lambton College are required to carefully read this agreement and sign below indicating that they fully understand and accept the terms and conditions of studying at Lambton College.

Per subsection 220.1(1) of the Immigration and Refugee Protection Regulations (IRPR), study permit holders in Canada are subject to both of the following conditions:

- They shall enroll at a designated learning institution (DLI) and remain enrolled at a DLI until they complete their studies.
- They shall actively pursue their course or program of study.

To be compliant with these regulations, international students studying at Lambton College must follow the program map as posted on the webpage at: <https://www.mylambton.ca/students/programmap>.

To be registered with the College for any given term, payment of full tuition is required by the posted deadlines. Failing to do so will result in the student not being registered for that term. International students who are not registered with the College for a given term will be reported as a "No Show" to Immigration, Refugees and Citizenship Canada (IRCC) for the DLI reporting for that term, which may impact the student's immigration status in Canada. Only students who pay full tuition by the posted payment deadline for each term will be registered, will get access to new term courses, and can attend for that term.

Further, please be reminded **that it is the student's responsibility to maintain their valid study permit status**. By paying tuition it is implied that you have a valid study permit and are eligible to continue your studies. It is recommended that you check the expiry date of your study permit and/or coop work permit to ensure its validity. It is the student's responsibility to apply for a study permit and/or coop work permit extension if required and to do so well in advance.

Additionally, it is the student's responsibility to comply with the conditions of the study permit and coop work permit. Students must carefully review conditions outlined in the immigration permits. In addition, it is the student's responsibility to comply with immigration legislation and regulations when engaging in employment while being enrolled in a study program.

Moreover, it is not the College's responsibility to assist to facilitate border crossing into Canada. Students must be aware of current travel restrictions. If the student leaves Canada during the study program, the student assumes the risk of any potential border-crossing issues that may occur upon re-entry to Canada.

I acknowledge, understand, and accept the terms of this agreement.
