

I started this day very severely and I dont want to talk about it at any time. I did my hair cut, nails cut, and armpits shaved in the morning. When I came home after my haircut, my grandmother(sampatamma) was waiting for me at her house for lunch. I went to lunch at their house and spent some time over there.in the morning, my brother did something which made a huge fight in my street. In the evening, I came terrace and started working on the project and I felt like I forgot everything I learned from studying. It has been only two days and I forgot so much. I realized I need to prepare myself. After writing this diary, I will look into the first project and if I am interested I might prepare the doc. I have to do a couple of things after that. The first and foremost is dinner. Secondly, brush my teeth. Finally, watch web series or youtube videos. I forgot to tell you something which I got to know from Mahesh's brother. It was about the iPad. He said to me that there is a chance of getting a free iPad if anyone opens an account with Royal Bank Of Canada and maintains that account for one year.
