

I woke up very early in the morning and I completed my bathroom rituals. I read the newspapers as well as the news in the morning and ate the tiffin. After that, I read the book for one hour. from that point of time to mid-afternoon, I watched web series as well as spent some time with my parents. I started studying swift language after half-past two. I was very sleepy and took a nap. At around 4 pm, I woke up and spent time on my Twitter as well as on youtube before I go to bathe. After the bath, I spent some time watching TV and attended the class. The professor told us to do our project while he was busy correcting our assignments. Right now, my group mate donia is currently working on the project and I have time to do anything I want. Right now, I am writing this diary. Once I complete this, I will spend the rest of my class time doing something productive, will have dinner, brushing, and watching videos.
