

I woke up early, did my daily chores, and attended class. He took a few minutes to update the question paper. When it was released, I realized that it was going to be a tough exam. I chatted with a few people about this, spoke, and watched several videos regarding that. the exam was not going according to plan and we submitted the exam by 1 hour and 30 minutes late. After that, I spoke to kethan while having lunch. In the evening, after Dheeraj came and went off, I cleaned the whole kitchen and my bed with my complete effort. I went to bathe after that, spoke to my parents, and ate dinner because I was hungry after the cleaning. I spoke to Aravind for such a long time and I eventually completed my night schedule. later, I watched one episode of house and cards and went to sleep.
